## MEDICINAL.

"I do not look as though I ever was sick."

When a woman is sick she falls off in looks. This is particularly the case when she suffers from diseases peculiar to her sex. Not only is her strength undermined, but she loses beauty of face and grace of form.

It is characteristic of the cures of women's diseases effected by the use of Dr. Pierce's Favorite Prescription, that with restored health there is a restoration of good looks.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I wish to thank you for the good your medicine has done me," writes Mrs. Mac Brown, of Canton, Fulton Co., Ill. "I was troubled with female weakness and doctored with several different doctors. They did not seem to help me; indeed I got worse all the time. I had ulceration and displacement of the uterus. What I suffered no tongue can tell. I had heavy bearing-down pains and thought my back would kill me. I also had a very bad drain, but after taking five bottles of 'Favorite Prescription' and three of 'Golden Medical Discovery' I am feeling as well as ever. It has been almost two years and I have had no return of the trouble. My friends tell me I don't look as though I ever was sick."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## LABOR TROUBLES IN WASHING-

TON.

According to the terms of an agree-

ment reached yesterday afternoon at a

joint conference of the executive board

of the Master Builders' Association and

the executive committee of the Central

Labor Union of Washington, all those

members of the Central Labor Union

and American Federation of Labor em-

ployed in building trades who were

locked out last Wednesday returned to

work this morning. The understanding

is, however, that this agreement shall

last for only two weeks, by which time

it is hoped that the labor difficulties

which caused the lockout will have

been adjusted. The plumbers, it is said,

are not affected by the agreement, al-

though it is provided that there shall

be no sympathetic strike pending the

final adjustment of troubles. The af-

airs of the carpenters form the basis

for the arrangement, which has been en-

tered into, and it is thought the misun-

derstanding between the three organi-

zations composing that craft in the Dis-

trict of Columbia will be righted with-

out needless delay. It is intended by

the negotiations, which were com-

menced yesterday, to make an effort to

settle all controversies now existing

between employees and organized labor.

The Employers' Association of the

Building Trades of the District of Col-

umbia held a special meeting at their

rooms in the Corcoran Building last

night for the purpose of discussing the

local labor question. There was a large

attendance. The following resolu-

tion was unanimously adopted at

the meeting last night:

Whereas the Master Builders' Associa-

tion of the District of Columbia on

May 9, 1902, adopted a resolution not

to employ labor affiliated with the

Central Labor Union, and to endeavor

to continue work with labor other than

that affiliated with the Central Labor

Union; and

Whereas the said action of the Master

Builders' Association was taken with a

view of preventing a general sympathy

strike, which they had reason to be-

lieve was about to be inaugurated by

the Central Labor Union for the pur-

pose of forcing certain labor organiza-

tions to affiliate with the Central Labor

Union; therefore be it

Resolved by the Employers' Associa-

tion of the Building Trades of the Dis-

trict of Columbia, that the action taken

by the Master Builders' Association was

just and proper, and that we, the

Employers' Association of the Dis-

trict of Columbia, do hereby approve the

action of the Master Builders' Associa-

tion and will use our best endeavors to

assist them in the action which they have

taken.

## THE PRESIDENT ON HORSEBACK.

President Roosevelt went horseback

riding as usual Thursday afternoon,

attended by an artillery sergeant un-

iformed in khaki, as orderly. When

the President reached Dupont Circle a

"seeing Washington" electric car drove

in sight and the guide continued his

lecture through a megaphone in this

way:

"On the left we see the elegant resi-

dence of Mr. George W. Washington,

the millionaire inventor and electrician,

formerly the home of the late

James G. Blaine; a little to the left

of Mr. Z. C. Lester, the Chicago mil-

lionaire, and father of the famous

beauty, Miss Mary Leiter, now Lady

Carson, the wife of the Governor

General of India; in the park in front

of the statue of the President of the

United States on horseback."

The crowd looked and one woman

said: "Whose statue is it; McKin-

ley's?"

"It's Roosevelt," the guide re-

sponded. "He ain't a statue yet."

STEERING WITH PROPELLERS.—The

advantages of the twin-screw system

of propulsion of steamships have been

proved once more in the case of a dis-

abled Atlantic steamship. In this case

it was the Deutschland, the fastest of

the trans-Atlantic liners, that got into

trouble, her rudder having been carried

away at a point 400 miles west of Bis-

hop's Rock. To a single-screw ship this

disaster would have meant complete dis-

ablement; for, although smaller vessels

have been steered by jury rudders con-

sisting of floating spars and awed asters

of the vessel, no such makeshift device

could be rigged up that would cost of a

23,000-ton liner. As it was, however,

by means of signals sent down from the

bridge to the engine room it was possi-

ble to keep the great vessel on a true

course, the port or starboard engine

being given more or less steam to

counteract the veering of the vessel as

she sheered that in ordinary weather a

conceivable that in ordinary weather a

single-screw ship would experience but

little delay from an accident which,

happening to a big liner of a dozen or

15 years ago, would have rendered her

completely helpless.—[Scientific Ameri-

can.]

AFFAIRS IN THE PHILIPPINES.—The

Manila constabulary has unearthed a

secret revolutionary society similar to

the Katipunan, which was organized

in the middle of April. It was dis-

covered through a municipal official of

Bulacan, who was solicited for a sub-

scription to a fund to buy arms. The

object of the society was to create a

republic of a revolution, and then

demand that Congress grant indepen-

dence to the Philippines under an

American protectorate. The leaders

have been arrested. The members are

obscure persons, who are not known

by Filipino politicians or the insur-

gent. The movement is believed to

have been suppressed. General

Chaffee has completed his negotiations

with the Moros in Mindanao. He has

also visited the island of Samar, and

will return to Manila tomorrow.

When you wake up with a bad taste

in your mouth, use Chamberlain's

Stomach and Liver Tablets. One or

two doses will make you well. They

also cure biliousness, sick headache and

constipation.

## Don't Start Wrong.

Don't start the summer with a lingering

cough or cold. We all know what a "summer

cold" is. It's the hardest kind to cure. Often

it "hangs on" through the entire season.

Take it in hand right now. A few doses of

One Minute Cough Cure will set you right.

Sore cure for coughs, cold, croup, grip, bron-

chitis, all throat and lung troubles. Abs-

olutely safe. Acts at once. Children like it.

"One Minute Cough Cure is the best cough

medicine I ever used," says J. W. Bowles,

Groveton, N. H. "I never found anything

else that acted so safely and quickly. For
